OUR VISION

QUALITY IS OUR HALLMARK

"Our mission is to leverage our family-founded legacy of trust and commitment to become a leading force in the global pharmaceutical industry. Grounded in the belief that relationships are the cornerstone of success, we strive to cultivate lasting partnerships as we ambitiously expand in Pakistan and beyond."

We are a Pakistan based pharmaceutical company run by a family of visionary doctors. Our manufacturing facility located on the Main Ferozepur Road in Lahore is ISO 9001:2015, 14001:2015, 45001:2018, 22000-2018 & ISO/IEC 17025: 2017 certified and is compliant with the latest cGMP and cGLP standards.

Established since 1995, Don Valley Pharmaceuticals through its higher standards of production and its modernistic manufacturing facility is renowned for providing quality healthcare products at affordable costs while meeting and exceeding international standards.

We pride ourselves on operating some of Asia's most sophisticated pharmaceutical machinery, including an active R&D Department and state-of-the-art Quality Control and Microbiology laboratories.

Our workforce of over 500 dedicated employees and their commendable work ethic is what differentiates us from our competitors. We value our employees and treat them like family because only by operating as a strong cohesive unit can we truly work for the benefit of our customers.

Don Valley has managed to carve a niche for itself in the world of Pharmaceuticals with its annual sales having reached US \$10 million across Pakistan, Asia and the African regions. Our products span the entire continuum of care including anti-infective, diabetes, cardiovascular, anti-ulcer, gastroenterology, anti-anemic, anti-epileptic, anti-depressant, vitamins and analgesic.

In addition to employing of a highly trained sales and marketing team spread across the region and an extremely sound distribution network, we are also a major player in supplying pharmaceutical drugs to Government Hospitals and Institutions.

Today, Don Valley aspires to reach higher export goals and explore further avenues in product innovation and development. We are already in the planning phase of launching fully automated injectable and nutraceutical units whilst effectively developing our sales in Sri-Lanka, Myanmar, Cambodia, Yemen, Afghanistan, Burundi, Guinea, Somaliland and many others.

We are extremely excited about the journey we have made so far and sincerely believe that the best of Don Valley is yet to come!

MANUFACTURING FACILITIES

The best pharmaceutical manufacturer in Pakistan offering excellence in discovery, development, quality, affordability, and obtainability.

Quality and compliance are at the heart of everything we do. Through the employment of highly experienced architects, engineers and industry experts, Don Valley's infrastructure has been planned and developed in accordance with the latest FDA requirements and the vision to house a range of manufacturing sections including different facilities for:

- Sterile Ampoules & Liquid Vial Section Liquid Oral Section
- General – Tablet, Capsule & Dry Powder Suspension Sections
- Cream & Ointment Section
- Narcotic Section
- Penicillin – Tablet, Capsule & Dry Powder Suspension Sections
- Cephalosporin Oral & Sterile Section
- Cephalosporin Oral Capsule Section
- Nutraceutical – Tablet, Capsule, Sachet, Soft Gel & Liquid Sections
- Anti-Cancer Section

Each section is equipped with GMP certified machinery, efficient dust extraction systems, dedicated flow of material and an independent HVAC system in order to prevent cross contamination and to create the required environmental conditions in each section. Our water purification system with double reverse osmosis followed by electronic deionization and WFI provides high quality purified water at each step of the manufacturing process.

The formulation of our products involves a highly intricate series of events, from the characterisation of active pharmaceutical ingredients, to the choice of recipients, to the selection of processing, compression, coating equipment and packaging systems appropriate for the specific drug and the dosage form. The consideration of prime importance for all of our products includes solubility of active drugs, preservation, taste masking, viscosity, flavouring, appearance and stability (chemical, physical and microbiological).

We pride ourselves on operating some of Asia's most sophisticated pharmaceutical machinery and our team of experts work tirelessly around the clock to maintain the accuracy of our equipment in order to ensure that all our products are manufactured at the highest quality. Our manufacturing facility meets and exceeds the latest cGMP and cGLP standards whilst implementing efficient SOPs (Standard Operating Procedures) throughout our organisation for precaution and accuracy at each stage of the manufacturing process.

QUALITY CONTROL SECTION

Established since 1995, Don Valley has never limited itself only to the acquisition of ISO certifications but has also acted on it by heavily investing in training and nurturing a quality based culture that flourishes throughout our organisation, from the starting point of production to the delivery of goods.

We have always placed the highest emphasis on continuously improving and maintaining a quality culture which is strongly supported by a pragmatic and robust Quality Management System (QMS) to ensure safety, efficacy, reliability and quality of our products.

The QMS is implemented through the employment of a highly skilled workforce and professional management backed by an on-going integrated human resource training and development program. QMS execution excellence and performance is regularly monitored and reviewed to ensure continuous improvement and compliance to international standards.

Our state-of-the-art Quality Control laboratory consists of four major sections:

- **Chemical Section**
- **Components Section**
- **Research & Development Section, and**
- **Microbiological Section**

Complying with the latest international standards, our well equipped quality control sections guarantee precision and accuracy in our analysis. Our analysis are paired with the evaluation of our systems and processes for the purpose of achieving continuous improvement, compliance as well as endorsements from regulatory authorities and current Good Manufacturing Practice (cGMP) experts from different regions of the world.

At Don Valley, we use quality as the basis for all our business activities and our highest decision criterion to secure a higher level of trust from the patients/consumers of our products. Considering the fact that our products are well-accepted and their demand is growing consistently, we can safely assume the confidence in our products by different stakeholders.

CONTRACT MANUFACTURING

**WE ARE
DEDICATED TO
PROVIDING
HIGH-QUALITY,
TRUSTED
MEDICINES AT
AFFORDABLE
COSTS**

Don Valley is a leading contract manufacturing pharmaceutical company of Pakistan and an expert in manufacturing branded generic pharmaceutical products. We combine technical agility with a responsive team that adds real value to your development and manufacturing projects.

Our highly advanced cGMP and ISO compliant manufacturing facility offers a wide range of technologies and an expert team which lets customers access a unique breadth of service, all out of one location in the heart of Lahore. Don Valley has the flexibility to produce a variety of products, with large capacities for manufacturing tablets, capsules, syrups, dry suspensions, penicillins and cephalosporins.

Don Valley has a long history of manufacturing sophisticated formulations whilst ensuring patient compliance and product effectiveness, letting us provide responsive solutions to your challenges. All of our production takes place under strict current Good Manufacturing Practice (cGMP) principles.

Our customers experience seamless service, from product design, regulatory requirements, sourcing of materials to development, manufacture and distribution of finished dosage forms. In addition to this, we will also manage land, air and sea freight services whilst dramatically reducing delivery times for your product to any country of your choice.

If you would like to discuss contract manufacturing services with Don Valley, then we would like to hear from you. Please get in touch using our contact details.

DISTRIBUTION PARTNERSHIPS

We strive to establish long-term cooperation with our distribution partners providing the highest quality service and support to allow our partners to flourish in delivering our brands in their region.

We can offer you the opportunity to exclusively distribute our product range in your region whilst providing you access to our proven brands, world-class formulations, manufacturing, safety testing, packaging services and proven sale models to ensure our products continue to be a success for our distribution partners.

We offer low minimum orders, logistics management, flexible payment options and very attractive margins making us the ideal partner to work with. If you would like to become a distributor of Don Valley Pharmaceuticals within your region, then we would like to hear from you. Please get in touch with us using our contact details

Our distribution network covers more than 100,000+ pharmacies in Pakistan and across the globe.
